Grading

Course grades will be determined by these weights:

| | |
|--------------------------|-----|
| Homework: | 10% |
| Quizzes/Project(s)/Labs: | 40% |
| Midterm: | 25% |
| Final: | 25% |

The final class grade will be assigned according to the 10-point scale shown below. The grades may or may not be curved.

| | |
|---|------------|
| A | 90 – 100% |
| B | 80 – 89.9% |
| C | 70 – 79.9% |
| D | 60 – 69.9% |
| F | < 60% |

Homework

All assignments will be given with a strict deadline, and students are required to submit their assignments on or before the deadline. Homework will be collected at the start of the class on the due date, and late submissions will not be accepted. In case of extenuating circumstances, students are advised to contact the professor as soon as practical. You are encouraged to discuss the course and the assignments with each other; however, your exams and homework should be your own work.

Attendance

Attendance will be taken. Attendance will be used as a deciding factor when the final average is between grades. For example, if you have an average of 89.5 and you have attended a high percentage of the classes it may be rounded up to an "A". If you have an average of 89.5 and you have attended a small percentage of the classes it will probably still be a "B".
